

American Bicycle Security Company

Standard Bike Rack Finish Options:

Hot Dipped Galvanized

Hot dipped galvanized is an extremely durable and low cost finish option. All of our bike racks are hot-dipped galvanized after fabrication and then hand ground to ensure a clean, safe surface. Unless otherwise noted, a hot dipped galvanized finish is included standard in the cost of all bike racks. We suggest using galvanized or stainless steel in locations where snow removal and corrosion are an issue.

Black RAL 9005	Flat Black	White RAL 9003
Orange RAL 2004	Yellow RAL 1023	Bright Yellow
Green RAL 6016	Light Green RAL 6018	Hunter Green RAL 6005
Blue RAL 5005	Sky Blue RAL 5015	Dark Purple
Iron Gray RAL 7011	Light Gray RAL 7042	Silver RAL 9007
Beige RAL 1001	Sepia Brown RAL 8014	Bronze
Deep Red RAL 3003	Wine Red RAL 3005	

TGIC Powdercoat Finish

We offer over 250 high quality TGIC powder coated colors and specialize in matching color schemes. Our powdercoat finish starts with a sandblast treatment which cleans and etches the steel surface. An epoxy primer is electro-statically applied to ensure excellent adhesion to the base steel, and to protect the steel against corrosion and scratches. A final TGIC powdercoat is electro-statically applied and baked on to give the rack the final color and an additional layer of protection.

Stainless Steel

Stainless steel is the most beautiful and durable option. We use a 304 grade stainless steel which will continue to look new and attractive for many years.

Red	Gray	Brown

Thermoplastic Coating

Surface preparation for applying a thermoplastic finish is the same as is done with powder coating. Unlike powder coating, no primer is required. The thickness of the thermoplastic finish is more than powder coating, typically from 8 – 10 mils. In addition to an increased thickness, the thermoplastic finish offers superior impact resistance over powder coating.

These swatches are approximate only. Colors look different on different printers and computer monitors. If your color match is critical, please request actual powder coated color samples. Color options vary depending on rack.
