

Bike-Shell® Model 352SS

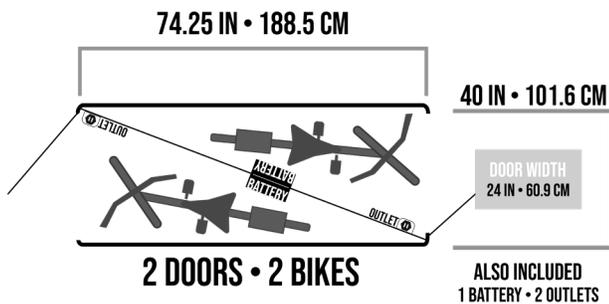

NO ASSEMBLY REQUIRED

- Product** Bike-Shell® Model 351
- Capacity** 2 doors / 2 Bikes or Disaster Storage Container
- Setback** Please allow 5ft clearance for door
- Solar-Shell® Power System**
- Molded fiberglass reinforced plastic composite body
 - "X" pattern on stippled walls
 - Smooth door frame with stippled door surface
 - Locker body joined by internal fasteners
- Integrated photovoltaic (PV) power unit consisting of:
 - o PV panel
 - o Controller unit
 - o 12V → 110V inverter
 - o Battery Box

- System Function**
- PV panel maintains charge in 12V gel battery
 - 12V power converted to 110V through inverter
 - 110V output powers the bike's internal battery charger
 - Battery provides charging capability in low-sunlight conditions

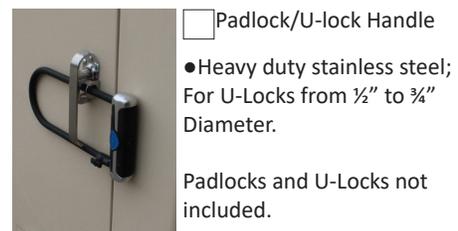

- Electrical & Safety Features System Voltage**
- Operates at safe 12V DC (no building code conflicts)
 - UL-approved inverter for bike charging unit connection
 - Integrated protection circuitry with automatic shutdown
 - Self-initializing system automatically resumes charging after shutdown
 - Prevents electrical component damage under fault conditions
